

## Terry Pellegrino, FCSI

### Principal

Terry has been planning foodservice facilities since 1985 and has considerable experience developing functionally-oriented operations for colleges and universities. She identifies flexible design options that allow operations to adapt to changes in volume, equipment, and menu trends. Pellegrino's designs are based on a clear understanding of operations, food production and holding processes, staffing and work simplification. She listens closely to make certain her work is guided by the end users and administration because each project is unique. Her intense customer-focused approach, coupled with her hands-on experience provides a seamless process from start to finish.
