

Terry Pellegrino

Principal

Terry has been planning foodservice facilities since 1985 and has considerable experience developing functionally-oriented operations for colleges and universities. She identifies flexible design options that allow operations to adapt to changes in volume, equipment, and menu trends. Her understanding of form, function, and flexibility has led to projects on over 30 campuses including convenience stores, retail, and board plan facilities.

Terry's designs are based on a clear understanding of operations, food production and holding processes, staffing and work simplification. Terry believes each project is unique. She listens closely to make certain her work is guided by campus qualities. Her intense customer-focused approach, coupled with her hands-on experience provides a seamless process from start to finish.

Education

Bachelor of Arts - Food & Nutrition
Concordia College
Moorhead, Minnesota

Dietetic Internship
Massachusetts General Hospital
Boston, Massachusetts

Affiliations
